Project Report

Department of Botany

G.C. Nagrota Bagwan

Date: 27/3/2023

Students of B.Sc. 1st Year were given a project on "Preparing of Herbarium Sheets". All the 68 participants learned to collect, preserve and identify diverse flora of their native region. The aim of the project was to create Herbarium Sheets for different plant species, showing their taxonomy. The procedure for properly collecting, pressing, mounting and labelling Herbarium specimens was clearly demonstrated to students during their theory classes of paper BOTA102 (Ecology and Plant Taxonomy). Each of the students was instructed to collect at least one specimen from their surroundings and after proper drying and pressing, the specimens were mounted and labelled on the Herbarium Sheets. The selected and well-maintained Herbarium Sheets were deposited in the Departmental Laboratory.

Collection of Plant Specimen & Preparation of Herbarium Sheet.
