**September 16 is World Ozone Day (POSTER MAKING COMPETITION)**

This year's theme is: Montreal Protocol: Advancing Climate Action.

The Montreal Protocol on Substances that Deplete the Ozone Layer is one of the world's most successful international environmental treaties. Agreed in 1987 to protect the ozone layer, it is now a recognised and powerful climate action tool.

The Montreal Protocol has guided global action to phase out ozone damaging substances. This protects the ozone layer and slows climate change.

The World Ozone Day offers an opportunity to focus global attention and action on this vital environmental issue.

To create greater awareness among the students to protect the Ozone Layer, poster making competition for the students is being organized by Eco Club of the college.
