Dear Sir/Madam,

I hope this email finds you well.

Further to our recent discussion, we would like to formally propose conducting a **Cyber Security Workshop** for the students of **Government College Nagrota Bagwan** on **22nd July 2026**.

As cyber threats continue to evolve, it is essential for students to develop awareness of digital security, safe online practices, and the growing career opportunities within the cybersecurity domain. The workshop will be an interactive and industry-oriented session led by cybersecurity professionals, providing students with practical insights into today's digital landscape and helping them build a strong foundation in cyber awareness.

We kindly request you to confirm the proposed date or suggest a suitable time slot as per the convenience of the institution. Upon receiving your confirmation, our team will coordinate all further arrangements to ensure the successful execution of the session.

We request you to kindly reply to this email with your confirmation so that we may proceed with the necessary planning and coordination for the workshop.

We look forward to collaborating with **Government College Nagrota Bagwan** and contributing towards equipping students with the knowledge and awareness required to navigate today's digital world securely.

Thank you for your time and consideration. We look forward to your positive response.

Warm Regards,
Team Thread Security
